

CERTIFIED LOGISTICS SUPERVISOR (CLS)

Certified Logistics Supervisor (CLS)

Supervisor logistik yang unggul menjadi tulang punggung operasional organisasi, memastikan keselamatan dan efisiensi dalam rantai pasok. Organisasi membutuhkan pemimpin logistik yang mampu mengelola pergudangan dengan presisi dan memahami dinamika industri logistik. Keberhasilan Supervisor logistik dalam mengkoordinasikan proses operasional dan meningkatkan efisiensi pergudangan menjadi faktor kunci dalam menjaga kualitas layanan kepada pelanggan.

Program *Certified Logistic Supervisor (CLS)* memberikan landasan komprehensif kepada Supervisor logistik. Merujuk pada standar internasional seperti *TLI50410 Diploma of Logistics* dari *Transport & Logistics Industry Skills Council, Australian Government*, serta mengikuti regulasi nasional seperti Peraturan Presiden No.26 Tahun 2012 tentang cetak biru pengembangan sistem logistik nasional. Dengan demikian, peserta tidak hanya mendapatkan pemahaman global, tetapi juga sesuai dengan konteks logistik nasional.

Pelatihan CLS membekali Supervisor logistik dengan enam unit kompetensi, termasuk sistem operasional pergudangan, pemilihan dan penilaian pemasok, serta pemantauan kinerja logistik. Ini memberikan keterampilan praktis untuk menghadapi kompleksitas tugas sehari-hari dalam manajemen logistik.

Excellent logistics supervisors form the operational backbone of an organization, ensuring safety and efficiency in the supply chain. Organizations need logistics leaders who are able to manage warehouses with precision and understand the dynamics of the logistics industry. The success of logistics supervisors in coordinating operational processes and increasing warehouse efficiency is a key factor in maintain service quality to customers

This Certified Logistic Supervisor (CLS) program provides a comprehensive foundation for logistics Supervisors. Referring to international standards such as TLI50410 Diploma of Logistics Industry Skills Council, Australian Government, as well as following national regulations such as Predential Regulation No. 26 Of 2012 concerning the National Logistics System Development Blueprint. In this way, participants not only gain global understanding, but also in accordance with the national logistics context.

CLS training equips logistics supervisors with six competency units, including warehouse operational systems, supplier selection and assessment, and logistics performance monitoring. It provides practical skills to deal with the complexity of daily tasks in logistics management.

Mengikuti pelatihan dan lulus uji sertifikasi CLS tingkat Nasional dari Badan Nasional Sertifikasi Profesi (BNSP) menjadi langkah strategis untuk meningkatkan kapabilitas organisasi. Sertifikasi ini bukan hanya menegaskan kemampuan individu, tetapi juga menciptakan kepercayaan bahwa Supervisor logistik memiliki standar kompetensi yang diakui, berkontribusi pada kemajuan dan daya saing organisasi di pasar logistik yang kompetitif.
