

CERTIFIED WAREHOUSE MANAGER (CWM)

Certified Warehouse Manager (CWM)

Manajer gudang yang unggul menjadi kunci keberhasilan operasional organisasi dalam mengelola rantai pasok. Mereka memastikan efisiensi, keamanan, dan integritas barang di seluruh proses pergudangan. Keberadaan kompetensi manajer gudang yang tinggi memastikan pengelolaan inventaris yang efektif dan pengiriman yang tepat waktu, memenuhi standar tinggi dalam industri.

Program *Certified Warehouse Manager (CWM)* merujuk pada sistem standarisasi Internasional, seperti *TLI50410 Diploma of Logistics* dari *Transport & Logistics Industry Skills Council, Australian Government*, dan *Peraturan Presiden No.26 Tahun 2012 Tentang Cetak Biru Pengembangan Sistem Logistik Nasional*. Hal ini memastikan bahwa para peserta mendapatkan pelatihan yang selaras dengan praktik global dan standar Nasional.

Pelatihan CWM mencakup pemahaman mendalam tentang 9 unit kompetensi, termasuk manajemen mutu di pergudangan, manajemen risiko di pergudangan, dan praktik pergudangan yang baik. Ini membekali manajer gudang dengan pengetahuan esensial untuk menghadapi berbagai tantangan dalam operasional gudang.

Mengikuti pelatihan dan lulus uji sertifikasi CWM tingkat nasional dari Badan Nasional Sertifikasi Profesi (BNSP) menjadi langkah strategis bagi

Excellent warehouse managers are the key to an organization's operational success in managing the supply chain. They ensure efficiency. Safety and integrity of goods throughout the warehouse process. The presence of high competency warehouse managers ensures effective inventory management and on time delivery, meeting high standards in the industry.

The Certified Warehouse Manager (CWM) program refers to international standardization systems, such as the TLI50410 Diploma of Logistic from the Transport & Logistics industry Skills Council, Australian Government, and Presidential Regulation No. 26 of 2012 concerning the National Logistics System Development Blueprint. This ensures that participants receive training that is aligned with global practices and national Standards.

CWM training includes understanding of 9 competency units, including quality management in warehouse, risk management warehouse, and good warehouse practices. It equips warehouse managers with essential knowledge to face various challenges in warehouse operations.

Participating in training and passing the national CWM certification test from Badan Nasional Sertifikasi Profesi (BNSP) is a strategic step for the

organisasi. Sertifikasi ini tidak hanya meningkatkan kualifikasi individu, tetapi juga menunjukkan komitmen organisasi terhadap standar tertinggi dalam manajemen gudang, memberikan kepercayaan kepada pemangku kepentingan terkait kualitas dan efisiensi gudang.
